SUMMARY

Results driven engineering leader with 5+ years of process engineering management experience, including team supervision, ISO 9001 quality systems, R&D leadership, and operational safety compliance. Complementary background in IT support and cybersecurity strengthens cross-functional technical communication and systems thinking. Known for rapid problem-solving, clear communication, and driving process improvement initiatives.

SKILLS

Engineering & Leadership

Staff Supervision, Process Improvement, ISO 9001 Quality Systems, R&D Management, Requirements Gathering, Safety Compliance

Technical Support

Windows OS/Server MGMT, Desktop Support, Linux, Proprietary Research Equipment Support

Scripting & Programming

PowerShell, Bash, Python, Visual Basic

Cybersecurity

Network Security, Splunk, Incident Response, Digital Forensics, Kali Linux, PFSense, Snort, Wireshark, Burp Suite

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals

EDUCATION

Bachelor of Science: Chemical Engineering, *Iowa State University*
Ames, Iowa

Associate of Applied Science: Cybersecurity,
Des Moines Area Community College
Ankeny, Iowa

EXPERIENCE

Process Engineer Manager, A to Z Drying, INC.

11/2018 – 08/2023

- Led a team of 30+ operators across multi-shift production operations, including on-call emergency response and day-to-day personnel management
- Designed and executed process improvement projects resulting in safer, more efficient plant operations
- Monitored and analyzed production data to identify trends, mitigate risks, and optimize throughput
- Oversaw R&D production functions and implemented ISO 9001-certified quality objectives
- Served as primary technical resource for cross-functional teams, bridging engineering and operations

IT Desktop Support (Intern), Solutions Management Group Inc.

09/2025 – 02/2026

- Provided Tier 1-2 technical support for DMACC students and faculty, handling hardware deployment, network configuration, and computer repair
- Utilized Active Directory for MFA resets, account modifications, and identity verification using the TeamDynamix ticketing system

Founder, 9Door L.L.C.

2023 – Present

- Founded and operate an IT consulting firm specializing in web development, API development, and application development for local businesses
- Manage all aspects of business operations including client relations, project scoping, and solution delivery
- Lead full project lifecycles from requirements gathering through implementation and delivery
- Apply modern development practices to build and deploy custom digital solutions for clients

Lab Technician, Waldo Genetics

06/2024 – 01/2025

- Conducted genetic testing and analysis for research projects.
- Maintained laboratory equipment and ensured compliance with safety protocols.
- Documented experimental results and prepared reports.
