SUMMARY

Driven engineer pivoting to roles in IT and cybersecurity, leveraging strong technical and leadership skills. Expertise in process engineering, quality systems, safety compliance, and technical support. Proficient in troubleshooting, identity and access management, and user support, with hands-on help desk experience. Noted for clear communication, team leadership, and rapid learning of new technologies.

SKILLS

Cybersecurity

Network Security, Splunk, Incident Response, Digital Forensics, Kali Linux, PFSense, snort, Wireshark, Burp Suite

Technical Support

Windows OS/Server MGMT, Desktop Support, Linux, Proprietary Research Equipment Support

Scripting and Programming

PowerShell, Bash, Python, Visual Basic

Project Management

Staff supervision, ISO 9001 Procedures, Requirements Gathering

LEADERSHIP EXPERIENCE

Current Vice President of the Cyber Threat Club at DMACC

Leading monthly meetings on cybersecurity concepts, events, and technical skill development. Coordinating team participation in CTF and cyber defense competitions while developing training sessions and promoting cybersecurity awareness across campus.

EDUCATION

Associate of Applied Science: Cybersecurity,

Des Moines Area Community College
Ankeny, Iowa

Bachelor of Science: Chemical Engineering, Iowa State University

Ames, Iowa

Study Abroad Engineering Program, Zhejiang University

Hangzhou China

Study Abroad Chemical Engineering Program,

Universidad de Oviedo
Oviedo Spain

EXPERIENCE

IT Desktop Support (Intern), Solutions Management Group Inc.

09/2025 – 02/2026

- Provided Tier 1-2 technical support for DMACC students and faculty.
- Gained valuable knowledge of the Active Directory to assist with MFA resets, account modifications, password issues, and identity verification.
- Performed computer repair and on-site technical support, ranging from hardware deployment to network configuration.
- Collaborated with senior technicians to escalate complex issues and ensure timely resolution.
- Utilized IT ticket system (TeamDynamix) to prioritize end user support requests and resolved issues efficiently.

Lab Technician, Waldo Genetics

06/2024 – 01/2025

- Conducted genetic testing and analysis for research projects.
- Maintained laboratory equipment and ensured compliance with safety protocols.
- Documented experimental results and prepared reports.

Process Engineer Manager, A to Z Drying, INC.

11/2018 – 08/2023

- Managed operators and handled on-call emergencies.
- Developed and executed process improvement projects.
- Monitored and analyzed data to ensure safe and efficient operations.
- Led R&D production functions and implement ISO-certified quality objectives.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
